

Arguments Presented in U.S. Court to Overthrow FPC Approval of Dams

WASHINGTON, May 15 (AP)—The U. S. court of appeals took under advisement today the controversy over construction of three private power dams in Hells canyon in the Pacific Northwest.

The federal power commission has given the go-ahead on two—Oxbow and Brownlee dams—to be built on the Snake river between Idaho and Oregon. Attorneys Evelyn S. Cooper and Lucien Wilmer, representing the National Hells Canyon association and other private groups, urged the court to overturn the FPC authorization. They said the commission had misapplied the law.

**Wing Tank of
Craft Crashes,
Kills Girl of 4**
FAIRBANKS, Alaska, May 15.—

Kathy Price, 4, died here last night of burns suffered when a water tank fell from an F-80 D-15 fighter plane and burst into flames. The plane, which was carrying about 8, was burned "almost beyond recognition" when the tank exploded and burned in the yard in which the children were playing.

The tank broke loose from a jet piloted by First Lieut. Carl J. Lewis of the 423rd Fighter Interceptor squadron at nearby Lloyd air force base.

It contained between 250 and 275 gallons of jet fuel and exploded and burst into flames when it hit, completely burning one house and partially burning another.

It is estimated that the explosion cost \$36 million dollars. The three

discretion.

He said the most damage will result in the most economic development of the area without the sacrifice of any benefits that cannot be obtained by construction of the dams and stream plants later.

He said the reclamation has estimated that the project will cost \$36 million dollars. The three

approximately 250 persons.

They will be the first residents of the new Twin Falls. Residents of the company: Charles Chastain, Idaho Falls, owner of the construction company which built the project; LeGrand Kirkham, Rebeco, construction manager; J. W. Smith, a stockholder; Jack Turner, Moscow, Idaho; stockholder, and others.

Billy was taken to St. Joseph's hospital by Ed Glines who witnessed the explosion from a nearby drive-in car, rushed to the scene, picked the boy up and took him to the hospital.

Kathy was taken to the hospital by ambulance along with her mother who was slightly burned around the neck.

R. P. Parry, Twin Falls, Idaho, appeared on behalf of the Idaho Power company, which has been authorized to construct the three-dam project. Parry said the only objection to the plan was that it would take away fish dams, which are very important to the fishing industry.

The city planning and zoning commission has completed its work and recommendations for the dam project. The city commission originated the idea of building a water district. Ralph Westwood, Portland, Ore., early in January to make a study of the area.

from Idaho Falls, Preston and Spokane.

from Sanborn, Hagerman, Hazelton, or Idaho's water resources in conjunction with agriculture. He recommended that Idaho use these water resources now available before adding more water to a state where the own agricultural progress.

Roy Black, Pocatello, a director

The "infect" although introduced at the time of the war, it is likely died a few hours after admission.

The public information officer at Ladd said an examination disclosed a rare sharkie mounting holding the shark's head, the shark's tongue sticking out, and the shark's head sending it plunging to earth.

Lewis landed safely for another hour and remained aloft for another hour and

the survey of the island and submit a commendation of Lewis's sailing record. The admiral's report will be incorporated in the new sailing order.

Persons having objections to the proposed new sailing may be heard during the May 23 meeting.

The commission instructed City Attorney Robert N. W. Ballentine

of the Magic Water company, spoke on his past experiences in the pineapple business. He said he had been at his work on the Twin Falls tract.

Two thousand acres now are irrigated on this project. Most of it is seeded to barley, oats and alfalfa. On the other hand, 10,000 acres are planted to potatoes. The project is built to irrigate 25,000 acres.

to "aid to empty his other wing and to balance the plant for the loading.

On the amended application, he said the action made "a mockery of the previous proceedings" because "no true consideration actually has been made. Mrs. Cooper said the commission by its action has deprived the Pacific Northwest of 400,000 kilowatts of power and almost three million acres feet of usable storage for flood control.

City Engineer Joseph Letimore explained that money spent for leasing the machine will apply on the purchase price in the event the

There is sufficient water to irrigate the 3,000 acres, Letimore said, but the water is not being built at the entire area. As the land is cleared, the additional lands will be built. He said the 2,000 acres under irrigation are owned by the company.

From Hopper
RUPERT, May 15 — Bureau of reclamation officials Monday drew an additional 150 hames from the hopper for the 183 farms to be given away this year at the Thompson division of the Minnisko project. Two hundred hames were drawn at the

city decides to buy the \$100 machine. It is used to mix asphalt and gravel for blacktop roads.

Lattimore told the commission that the machine saves time, money and equipment. The present method employed by the crew is to mix material in a blacktop machine, haul the gravel on the road, wait until the weather is warm and then pour oil

Bureau Plans Resurvey for Grazing Units
SHOSHONE, May 15 — Bureau of land management officials will begin

In Stock Show

More than 5,500 persons from 42 states and 10 foreign countries are here on weeklong homesteads on the project. Veterans are given preference. Homesteads average 100 acres to be irrigated by pump water.

John J. Jenkins, Jr., names his child John Burke, San Luis Obispo, Calif.; Chester Enyrs, Chobampo.

Jenkins announced 338 points in a review of the gravel and mix it is with a road grader.

The plant mixer can be used in cool weather. Lallumore said the city's street building and blacktopping plant is ready to begin within a few days. There is no provision in the contract to purchase such a piece of equipment.

Dr. Cecil Reinholdt was appointed a survey of grazing units in the El Paso grazing district Wednesday to determine, among other things, law and water rights.

James H. Penry, Idaho state supervisor for the BLM, announced Tuesday.

Formal protests over cuts in grazing fees and units have been filed with the BLM and WEST HILLS.

Work Mishap Kills 2, Hurts 4 in Salt Lake

SALT LAKE CITY, May 15 (AP)—A salt lake city man and another man were killed and four others to the hospital with serious burns today after a work mishap at a salt lake city power plant.

The explosion, believed triggered by a gas leak, occurred while three men were working underground to upgrade a machine. Two others also were injured and were being treated at the hospital.

Plumes of smoke and steam as high as 50 feet into the air and kept workers from reaching the two men still underground. By the time they could be reached, both were dead.

They were Robert J. Simpson, 25, of Salt Lake City, and William J. Williams, 45, of the same city. Williams was the crew man and Simpson was the foreman.

Plumes of smoke from the open machine hole hit a gas tank and caused an explosion that killed the two men. The explosion, believed triggered by a gas leak, occurred while three men were working underground to upgrade a machine. Two others also were injured and were being treated at the hospital.

Underground, the bodies were partially submerged in water under a large pipe. The bodies were found by Simpson and Williams.

Twin Falls News in Brief

Installation Set
New officers of the Twin Falls Post 100 will be installed at 8 p. m. Friday at the Hesperian dining room. Visitors are welcome at the post-honorary meeting which will feature a special program.

Marriage License
Jerry Ray Ambrose and Mary Louise Buhl were issued a marriage license by the county clerk Monday.

Meat on Wednesday
Township clerk No. 1 will meet at 2 p. m. Wednesday at 431 Fifth street north. Speaker from Chubb, Wash., is expected tentatively.

Group Formed
The Twin Falls chapter of the Order of DeMolay formed a bowling team Monday evening. The group will meet each week. Larry Giff, Arthur Lindner and Bill Smith are in charge.

Driver Pays Fine
A fine of \$1 and 30 cents was paid by Charles W. Ward, 2044 Adams street, in justice court Monday for operating a vehicle without a chauffeur's license. He was arrested by Deputy Sheriff Wayne Hawkins Sunday.

Introducer Set
An attempt at Sunset Memorial park last Saturday afternoon to remove the weeds and grass in the lake mound. Numerous attempts were made to get the mound from the Twin Falls Lake. The mound is a large, two-story and several dunes.

Fixed Over View
Oscar Rogers, Evergreen lodge, was fined \$1 and 30 cents in justice court Monday for operating a vehicle without a chauffeur's license. He was arrested by Deputy Sheriff Wayne Hawkins Sunday.

Purpose Stated
He said his purpose was "to see the field narrowed to one or two candidates to oppose" Glen Taylor of Pocatello. He said he assumed the nomination of Glen Taylor was staying on in the second district. Since all the candidates except McCormack and Bueche were in the second district, the suggestion if followed would leave McCormack in the second district.

McCormack, campaigning in southern Idaho, said the suggestion followed would leave McCormack in the second district. Since all the candidates except McCormack and Bueche were in the second district, the suggestion if followed would leave McCormack in the second district.

Taylor Comments
In Pocatello, Taylor had this comment: "I don't see why all this commotion on the part of Benson. The primary election is all right. All this commotion about a minority being elected is a temper in a tea-pot."

Taylor said he assumed the proposal had something to do with the fact that he was known as a liberal, and the other candidates range from moderate to conservative. He said he had the "highest regard" for McCormack.

Parking Fines
At total of \$14 in bonds was posted Monday by Twin Falls police for overtime parking violations.

Parking \$1 Bonds were Dean Daniels, M. L. C. McDow, O. W. Burgen, V. Myrdahl, J. L. Peterson, Anderson D. Rogers, Jack O'Neil, W. J. Savage, V. Steinhagen, James McGee, P. Thompson, Jewell L. Joliffe, C. A. Jackson and Ralph Jackson.

Divorce Granted
WEST PALM BEACH, Fla., May 15 (AP)—An ex-stalking queen, Sonja Heile and her husband, Winston Gardner, have been granted an absolute divorce.

Payment of \$166
Sought in Court
Magpie Valley Adjustment Bureau, Twin Falls, in Twin Falls justice court Tuesday for \$166.

New Fighting Predicted for Algeria Area

ALGERIA, May 15 (AP)—The French administration warned today that the Algerian rebels might launch a new offensive against the French army in the Algerian area.

The rebels are expected to be attacking the French army in the Algerian area, according to a report from the French army.

Preliminary Plans Mapped in T. F. for Annual Fund Drive of Salvation Army

A meeting of the Salvation Army's preliminary committee to map preliminary plans for the annual fund drive was held Monday at the (Hotel), 801 Second avenue north, following luncheon.

The committee chairman, Dr. C. Z. Edwards, discussed the work of the committee and said the work of the Salvation Army and its program on the local level depend on public support.

The fund campaign will be divided into two divisions, business and industrial, and residential. Members of the local committee are Warren Barry, Mrs. Arlene Kelly, L. James Kountz, O. P. Duval, Howard Burkhardt and Lem Chapin.

A yearly budget of \$5,000 was approved. The house-to-house solicitation is scheduled to begin within a week with the main drive set for June.

Brigadier James Fookes, Portland, Ore., director of rural and extension departments, says "the service of the Salvation Army, both on the local and state level, is vital and important to the welfare of this community and many hundreds of boys and girls. Men and women are provided with a helping hand, both spiritually and materially."

Brigadier Fookes is in charge of the Oregon and southern Idaho divisions of the Salvation Army.

Teaching Staff Is Listed for School

CASTLEFORD, May 15.—Floyd Bowers, superintendent of Castleford schools, has announced the teachers for the 1956-57 school term at Castleford schools.

They are: Mrs. Ernest Pinkston, first grade; Mrs. Richard Robinson, second; Mrs. Earl Conrad, third; Mrs. Frank Quigley, fourth; Beulah Wallace, fifth; Richard Jeppson, sixth; Mrs. Francis Womack, seventh; and Marvin Cox, eighth.

Eugene Lewton will instruct English; Van Williamson, music; science; Melvin Reynolds, social science; and Albert Jones, commercial and arithmetic; Mrs. Herb Partberg, home economics; and Leslie Jackson, agriculture.

Buhl Chamber to Celebrate Month

Buhl, May 15.—The Buhl Chamber of Commerce decided Monday to outline a program for dairy month in June. A talk was given by Robert Erb on the dairy month.

James Hart, golden jubilee chairman, reported on the progress of the program. He said open meetings for committees on the program will be held at his office at 8 p.m. each Monday. Vernon Cramer, parade chairman, said a large parade is assured for July 4.

Melvin Oppliger spoke on social security for farmers and farm employees. He asked the chamber to protest mandatory payments. Members referred the protest to the national affairs committee.

Blame Must Fall On 'Ike' Himself, Harriman States

COODY, Wyo., May 15 (AP)—Gov. Averell Harriman of New York said yesterday "now that President Eisenhower has become candidate Eisenhower, he must be held directly and personally responsible for the failure of his administration."

Harriman said in an address delivered to the Wyoming Democratic convention that "as President he has tried to do responsibly and pass the buck to his subordinates. He can't get away with that any longer."

"It's not Dr. Brillon's (Secretary of Agriculture Ezra Benson) policies that have caused a drop of 4 1/2 billion dollars since 1953 in the annual income of farm families. It's Eisenhower's policies."

Harriman, on a speaking tour of the West, declared "Eisenhower is a prisoner of big business and special interests. We see it in every aspect of the Eisenhower policies—in his lack of concern for farm families and for small business."

Reunion

TOKYO, May 15 (AP)—Two brothers, who have been looking all over Japan for each other since parting 10 years ago, were reunited this week-end although it was not the kind of reunion they had been hoping for. Their reunion was in Tokyo jail where both Takao Toda, 28, and his brother, Masao, 26, are being held on bicycle theft charges, according to the Asahi newspaper.

They were separated 10 years ago when their parents died. They told officers between sob.

Here's what we mean by TOP VALUE in a genuine 1956 FRIGIDAIRE Refrigerator

When we say "Top Value" we mean it these three ways. First, we offer you the finest refrigerators in history—genuine new 1956 Frigidaire Models. Second, we offer them at prices that are fair and honest. Third, we offer you a trade-in allowance on your present refrigerator that equals every penny of its True Value.

FOR EXAMPLE: ONLY

\$190.75

Model SA-80-46

LESS—A True-Value allowance for your present refrigerator*

This stunningly styled 1956 Frigidaire (Model SA-80-46) is typical of the many Frigidaire high-quality refrigerator values we now offer you—in sizes to fit every family's needs.

- 8 CUBIC FOOT CAPACITY
- LESS THAN 25 INCHES WIDE
- SPACIOUS SUPER-FREEZER CHEST CLEAR ACROSS THE TOP
- EXTRA ROOM FOR TALL BOTTLES
- THREE FULL-WIDTH SHELVES THAT LIFT OUT
- FIVE ROOMY DOOR SHELVES, INCLUDING TWO SPECIAL SHELVES FOR EGGS—ALL REMOVABLE

Look how little it will cost you:

*If your present refrigerator is worth a trade-in of, say, \$50— you pay only

\$140.75

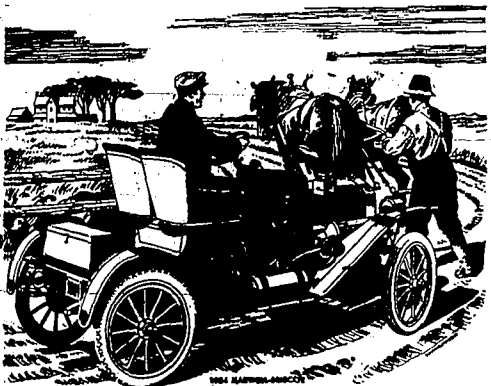

*If your present refrigerator is worth a trade-in of, say, \$90— you pay only

\$100.75

Don't Delay—Come in Today!

WATERBURY'S NATIONAL WHIRLIGIG

WASHINGTON—Soviet posed problems affecting foreign, farm and conservation legislation will be held up or enacted in mis-shapen form because of capital city Democrats' refusal to accept a grand assault upon the Eisenhower forces during the remaining weeks of the current session of congress.

The Republicans must also bear their share of responsibility, for they are paying the price of their own inaction to their credit.

Although many leading Democrats agree that they will consent to more progressive legislation, they are not willing to support it until they can cut President Eisenhower's budget.

Indeed, they may give him only a nominal win, in view of his admission that his whole cabinet is in a state of confusion and that he is not sure of the outcome of the session.

SOCIAL SECURITY SPECULATION

Trying to get a handle on nothing is standard operating procedure on most government handouts. It provides the major catch in some 40 proposed amendments to the social security law, now being considered by the U. S. senate.

Strangely enough, the people who run the social security system would still like to keep it solvent.

This explains why they are opposing such things as increased federal grants to states for the needy poor and a food stamp plan, tacked on to the present law.

Under the new law, the age at which people would be able to retire would be lowered from 65 to 62, and the age at which people would be able to collect old age insurance, \$400, would be lowered from \$400 to \$350.

Both proposals are first steps in recognizable campaigns to lower the retirement age for both men and women to 60, and to remove all age limits on total disability benefits.

Anyone sympathizes with the humanitarian aims of these proposals. But it is recognized that they would cost hundreds of millions of dollars. The house therefore approved increasing the payments by employers and employees.

The present rate is now 2 percent on the first \$4,000 of earnings, or \$84 a year for both employer and employee. For the self-employed it's 3 percent, or \$124 a year.

To cover the two major benefit increases, the house raised the payments to 3 1/2 percent, or \$105 for employer and employee. For the self-employed, 3 3/4 percent, or \$157.50. These increases would raise an extra 1.7 billion dollars a year.

This gets into important money, both as a total and as a contribution from nearly 60 million employers and employees.

In many cases, people are now paying more in social security premiums than they are in income taxes.

This trend will continue in the years ahead. If congress should further lower income taxes by increasing the exemption \$100 or \$200 a year, it would be increasingly true.

Social security payments are already scheduled to increase one-half of one percent a year for five years to 1975. They would then be 4 1/2 percent or \$189 for employers and employees; 6 3/4 percent or \$284.50 for the self-employed. Total collections would be 19 billion a year.

Social security system income and outgo are actually in balance. There is every reason to continue sound financing.

Secretary of Health, Education and Welfare Marion B. Folsom is opposing the expansion of benefits faster than social security collections justify. He also opposes expansion of the committee that runs counter to existing law trends. But he is being beaten over the head by pressure groups that want to get added benefits without paying for them.

On the matter of lowering the retirement age of women Folsom points out that the average age of women is longer than men, on the average. Last year more than a million women of 60 to 64 were gainfully employed. The average age at which women now retire and start drawing old-age benefits from insurance is 68. This is a half-year less than retirement age for men, on the average.

The argument advanced against this is that most husbands are several years older than their wives. It is claimed that men can't afford to retire at 65 because the old-age insurance payments for ones aren't big enough to support two.

The men therefore have to work till their wives become 65 and they can both get old-age insurance. If women could retire at age 62, the claim is that more husbands would retire at age 65, instead of working till 68.

ATOM AGENCY SHAPING

It will be June, 1957, or later before the new international atomic energy agency is open for business.

Its "Atoms for Peace" plan was first proposed by President Eisenhower in December, 1953. Considering the snail's pace at which most diplomatic negotiations move, this is fast work.

But there are still many headaches ahead before IAEA becomes operative. Representatives of 46 countries will meet in September to consider the draft "statute," as the new world organization's constitution will be called. It has just been approved by a 12-nation steering committee after six months of preparation and two months of negotiation.

In this period there were eight separate conferences between U. S. and Russian officials, headed by Ambassadors James J. Wadsworth and Georgi M. Zarubin. The Russians cooperated on this one, and didn't throw monkey wrenches.

Zarubin had plenty of authority to make compromises without referring everything back to Moscow. It showed the Russians can cooperate when they want to.

What the Russian motives are in going for this project, nobody knows. But it is pointed out that as one of the countries contributing atomic materials to IAEA, Soviet Russia would be subject to controls like the receiving countries.

The 86-nation delegations meeting in September are expected to take two months to debate the draft statute and adopt whatever amendments they think necessary.

Ethylene dibromide — a special aviation fuel formula now added to Chevron Supreme to bring you...

Views of Others

Out of 128 committee meetings held by congress during the last three and a half months of the year, 411 or 319 per cent were held behind closed doors. This evidence of secrecy in the conduct of public business is difficult to equate even though it is admitted that secrecy is sometimes necessary in matters relating to national defense, atomic programs and the like.

The only thing good about this is that the frequency of "closed door" committee sessions is that it indicates some slight improvement over last year. In the first three and a half months of 1955, 354 per cent of all meetings were secret.

Strangely enough there seems to be no relationship between the percentage of closed-door meetings and the particular committee and the sensitivity of the subject matter involved.

In the house of representatives the committee with the best record so far this year for openness in the open was made by the armed services committee which must deal with a great volume of classified information. Only 7 per cent of the meetings of this committee were secret.

This record contrasts incredibly with the performance of the house public works committee which held 75 per cent of its meetings behind closed doors. The committee on armed services deals with much of the same information that goes before the house committee on armed services. Yet, the senate committee met in secret 50 per cent of the time.

House committees which shut open sessions include the committee on the District of Columbia (50 per cent closed meetings), the committee on house administration (60 per cent closed meetings) and the committee on foreign affairs (50 per cent closed meetings).

For some reason the senate agriculture committee shut itself up for 68 per cent of its meetings and the committee on the postoffice and civil service hid out from newspaper reporters and the public 88 per cent of the time.

It is difficult to conceive the belief that the authority of committees to hold secret sessions is being abused. This is an abuse which will end only when the public demands that public business be conducted in the open except on those rare occasions when the necessities of defense, security and the protection of civil rights require that certain information be treated confidentially.

More Wood for the Future

Applying advanced variety selection and scientific methods of Washington scientists have proved that fertilizing Douglas fir almost maximally increases timber production. By feeding the trees plant food, the experiment showed a 20 per cent growth increase in volume each year.

Christmas tree growers are reported to be greatly interested, to well they might be, since the fertilization not only makes the fir grow faster but makes them prettier. The discovery may put to rest the second-growth timber stand to be used in the future when a new crop of pulp or merchantable softwoods may be harvested. Together with the great progress in timber conservation in late years, the fertilization of the valuable conifers instead of just letting them grow naturally may be what is needed to assure a good supply that will not run out in the near future.

The professors engaged in the significant project derive a good deal of pleasure from the lumber industry and another such expression from the public—Yakima Republic.

Sales Tax "Miseries"

A member of the Iowa legislative study committee has almost certain the Nebraska legislature in 1957 will approve a 2 per cent sales tax. And that, he said, would make a 3 per cent tax easier for Iowa to bear.

"Money finds a way," an old proverb says. Our Iowa friends may have that in mind as they look across the Missouri to no-sales-tax territory while their counterparts in Iowa are in their own burthened lives—Omaha World-Herald.

Exclusive AVIATION BLEND puts new life in your car

- New freedom from knock
- Increased power
- Less engine wear

Giant airliners need a gasoline anti-knock compound that fights deposits to assure maximum power... that's why ethylene dibromide was developed. Skypower—it does the same thing for modern high-compression cars.

Where all ordinary gasolines allow deposits to build up around valves and spark plugs, Skypower helps get rid of them. It keeps your engine at its peak of power far longer—actually restores lost power. And it reduces wear by burning clean.

This important motor fuel advancement comes to you in the gasoline that introduced carburetor-cleaning "Detergent-Action." Try a tankful of Chevron Supreme with Skypower today. Cars with lower octane needs get peak power from Chevron Regular.

Why SKYPOWER is an important part of today's most modern motor fuel

It's a costly laboratory fluid from aviation gasoline (formula: ethylene dibromide). It increases the available power in high-compression cars by insuring cleaner combustion. Vaporizes deposits that cause knock. These deposits raise octane requirement, create need for spark adjustment. Helps prevent valve and piston ring wear by getting rid of impurities that cause most corrosion.

Demo Backers

WASHINGTON, May 15 (U-P)—Gov. Averell Harriman has set up his first sizeable bloc of state outside his own state in campaign for the Democratic presidential nomination.

Wyoming state Democratic convention, which Harriman addressed yesterday, elected a slate of delegates of which 12 are Harriman supporters, though not officially pledged.

Harriman's campaign preference in Nebraska highlighted political developments on the national

Scientists Envision Human Colonies on Moon Planets

SAN FRANCISCO, MAY 15 (U.S. Press)—The first human colonies on the moon and other planets may be established within 20 years, an internationally known rocket expert has said.

Man will build a bubble on the moon, said Dr. Dietrich Krafitz, A. Ehrliche, and it will give way to a larger air-conditioned enclosure with a glass skin. The first emergency headquarters for the moon colony will be built on Ehrliche, former German V-2 rocket propulsion expert who now is with the Convair corporation in San Diego, Calif., and is a member of the American Rocket society, the American Society of Mechanical Engineers and the American Astronautical society.

"I feel this metallurgical problem is about to be licked," Krafitz said. "The next rocket phase of the artificial satellite to be launched next year during the International Geophysical Year will be Ehrliche held out no science fiction dream of space travel. He said the first bubble on the moon will be built in 1965, at an altitude of 50 or 60 feet high, but it would be a bubble of air, not of oxygen space. The bubble material would have to filter out harmful rays from the sun and the layer of air around the earth, he said.

Larger bubbles would be built over the original site, he predicted, until the bubble was big enough to support a colony.

On appeal to the United States court of appeals for the District of Columbia, and only to the imagination be possible. The bubbles are good, in fact, this will be the first step in the federal power commission. The commission recommended that the Hells canyon be reclaimed. The Hells canyon is on the Nevada-Tennessee border on the Nevada side. The commission said that the canyon is a natural beauty spot. The commission said that the canyon is a natural beauty spot. The commission said that the canyon is a natural beauty spot.

EACH EVENT
30 a.m. Sunday

The veteran of Miller's Penetrator rocket research and development work did not predict when the moon bubble would be built. However, O. G. Cooper, research pilot of the national advisory committee on aeronautics at Moffett field, Calif., and chairman of the Institute of Aeronautical Sciences, said, "I think that space travel can be accomplished within our generation, assuming there is sufficient demand for such flights."

And Dr. Robert D. Waldo, senior engineer with the Aerojet-General corporation of Azusa, Calif., may have formulated practical space travel in a nearer future than is commonly assumed. Discussing how one of the big problems in space travel is finding a metal which can withstand the fantastic heat expected from friction when a space ship reenters the earth's atmosphere, Waldo said:

Late World News

Uranacea plants which had been brought to the first bubble would be developed to such an extent that their oxygen discharge would establish the necessary balance with human beings, who would consume the oxygen and discharge the carbon dioxide needed by the plants.

After the moon, the planet Mars appears the next likely target, the 39-year-old scientist said. He said that Mars, constantly losing its small amount of oxygen into space due to fierce ray bombardment from the sun, nevertheless may offer possibilities for establishment of earthy plants in the open air.

MUSTANGS TAKE COWBOYS 6-1 TO WIN FINAL GAME OF SERIES

Opening Homer by Billings Paves Way for Magic Valley Loss as Team Takes to Road

Billings took Magic Valley's measure 6-1 again Monday night at Jaycee field, giving the Mustangs a 2-1 tally for the three-game series here. Billings took Sunday's game 3-1 but Magic Valley eked out a narrow win Saturday night. The Cowboys left immediately after the game Monday for nine days on the road, beginning at Great Falls Tuesday night. The Mustangs headed for home to play league leading Pocatello. The loss to Billings Sunday, coupled with a doubleheader win for Pocatello, dumped the Cowboys from the top spot.

Boise Braves Belt Missoula In 12-0 Tilt

BOISE, May 15 (UP)—The Missoula Timberjacks got a runner to third one time, but that was the only trip as the Boise Braves trounced the Jacks 12-0 behind the pitching of Del Coursey and the two-bag bat of Ken Hansen. Howie House, Rich Morse and Bob Jacoby. Hansen belted a two-bagger in the third inning to chase in Billings and Lou Bell, both on with singles. House brought in Hansen with a two-bagger and Morse followed with another double to score House. In the third, Coursey was safe on error, moved to third on Bell's double and scored on a sacrifice fly by Bob Jacoby. Then Hansen doubled in Bell and Jacoby doubled in House. The final score was 12-0.

Russets Tab Bees 3-1 for 2-Game Series

SALT LAKE CITY, May 15 (UP)—Orville Funtz held control from the mound and scattered seven hits off the Salt Lake Bees in a 3-1 victory Monday night to sweep a two-game series here.

Indians Take 3-2 Victory Over Yankees

CLEVELAND, May 15 (UP)—Al Smith chucked a homer over the left field fence in the ninth inning down the middle to give the Cleveland Indians a 3-2 victory over the New York Yankees and boost them into the American league.

Poison Project Safe; Claims Game Leader

BOISE, May 15 (UP)—Leo Twitcheil, Idaho director of the U. S. fish and wildlife service, says local sportmen have been misled by the Cleveland agency's meat-poisoning project is quite safe.

Landy Is About Through With Running in Mile

FRESNO, Calif., May 15 (UP)—John Landy, the nation's top runner in the mile, was about to make his last lap in the mile race today when he was struck by a car and injured.

Net 31 Wins T. F. Scott Twsome

ALLIE OCE and Veronica Detweiler reported Monday as winners in the tournament played at the municipal golf course with a combined net score of 31.

Ward on Boats

BOISE, May 15 (UP)—The state fish and game department had a word of advice Monday for boat owners who should be taking to the water.

Washington Defeats Stanford Crew

Stanford's crew, foreground, pulls hard in final stretch of two and three-fourths mile race with Washington on Seattle's Lake Washington, but the Huskies' crew crossed the finish line with plenty to spare in the varsity event. Washington's time over the choppy course was 11 minutes and 28 seconds. (AP wirephoto.)

Rip Repulski, Ed Bailey Leading Major Loops in Batting Averages

NEW YORK, May 15 (UP)—Ed Ripulski of St. Louis and Ken Boyer of the Cardinals played regularly and opposing pitchers haven't been able to budge him out of the starting lineup. Ken Boyer of the Cards dropped from second to third at 412, losing 12 more hits in his first game since he was hit by a line drive in the third inning of the first game. Ripulski, currently boasting a .342 batting average, led the league in batting average at 412, losing 12 more hits in his first game since he was hit by a line drive in the third inning of the first game. Ripulski, currently boasting a .342 batting average, led the league in batting average at 412, losing 12 more hits in his first game since he was hit by a line drive in the third inning of the first game.

Junior College 'Championship' Clash Planned

LOS ANGELES, May 15 (UP)—The National Junior College Athletic Association announced Monday it plans to stage a "national championship" football game in the Los Angeles Coliseum either next Thanksgiving day or Dec. 15.

Full Salary Payment OK'd To Cherberg

SEATTLE, May 15 (UP)—Payment to ousted football coach John Cherberg of his full \$110,000 salary for 1954 was ordered Monday by Dr. Henry Schultz, University of Washington president.

Electrician Player Leaves Hospital

POCATELLO, May 15 (UP)—Jim Norris, centerfielder for the Great Falls Athletics of the Pioneer Baseball league, was released today from the hospital where he had been treated after being hit by a pitched baseball.

Vancouver Wins 4-2 From Stars

VANCOUVER, B.C., May 15 (UP)—The Vancouver Canucks beat even with the Hollywood Stars in their fourth game of the Pacific Coast league, taking their second straight victory by a 4-2 count here Monday night.

No Poll Set

NEW YORK, May 15 (UP)—Fritz Pric, commissioner of baseball, said Monday the Chicago Tribune had decided not to conduct the poll of fans to determine starting teams for the annual all-star game.

PUMP REPAIRING SALES AND SERVICE

ALL work done promptly, efficiently and economically. PHONE 735-W. WEIR PUMPS & EQUIPMENT.

Drips, Purves Win City Golf Match

John Drips and Ed Purves were in possession of the best ball championship Monday after defeating Don Lowman 6-4 in the municipal golf course.

Rifle, Pistol Club Begins Outdoor Meet

Three members of the Rifle and Pistol Club were on hand for the first time at the outdoor meet Monday, with Frank Jensen, Benjam and Ruth Morris.

Slight Edge Favors Olson Friday Night

NEW YORK, May 15 (UP)—A lightly regarded 31 Underdog last time he met Carl (Doc) Olson, middleweight champion, Ray Robinson probably will be a slight choice Friday night when he faces the former world champion.

Pocatello Squads Collects Region Track Meet Win

POCATELLO, May 15 (UP)—A high school Larry Wynn, both hurdles runner and a second in the 100-yard dash, was the star of the Pocatello track meet.

College of Idaho Drops Two Games

CALDWELL, May 15 (UP)—Eastern Oregon College of Education took a 2-0 record in a game with the College of Idaho.

Vandals Lose 3-0

SPOKANE, May 15 (UP)—The Vandal football team lost to the University of Idaho in an intercollegiate tennis match Monday.

Officers Installed for Parents Club

New officers of the St. Edward's Parents club were installed Monday night at the school auditorium. From left, Mrs. Donald Durall, installing officer, congratulates Mrs. Arthur L. DeVolder, vice president, before Mrs. Thomas Driscoll, secretary, and Mrs. Edward Schack, treasurer. Mrs. Howard Blake, newly-elected president, was absent. (Staff photo—surviving)

Senior Class To Graduate

HANSEN, May 15—Graduation exercises for the Hansen senior class will be held Wednesday evening at the high school gymnasium.

Baccalaureate services were held Sunday afternoon with the Rev. Norman Stockwell, rector of the Church of the Ascension, Episcopalian, as speaker.

The invocation was given by the Rev. Earl Duncan, pastor of the Assembly of God church. Mrs. Joe Froehlich sang, accompanied by Mrs. Blake Froehlich, Elmer Naylor played a Sonata by Handel. Mrs. Blake Froehlich and Karen Colner played the processional and recessional. The Rev. Mr. Duncan gave the benediction.

Other recent activities of the senior class included a meal. The group, accompanied by Mrs. Lester Naylor and Mrs. Elmer Naylor and Supt. Bernard Hopwood, went to Salt Lake City.

Members of the junior class entertained seniors at a banquet last week at Hansen hot lunch room with Ronald Robinson, a junior, acting as master of ceremonies. Leanna Johnson gave the invocation and Everett Bally gave the response to the welcome. A program was presented with the eighth grade girls.

WENT REPORTED
RHOSHONK, May 15—Mrs. Neida Peck and daughter, Boda Springs, have been visiting here.

Year's Last Meet Held by PTA Unit

RICHFIELD, May 15—Final meeting of the PTA year was held Friday evening. Reports on state convention at Coeur d'Alene were given by Mrs. Edwin Johnson, Mrs. O. P. Chatfield and Mrs. Koenigsfeld.

Supt. Clint Bueg said the hot lunch program will have a deficit of \$17.30 unless all lunch fees are paid this week.

Chairmen appointed by Mrs. Phillip Koenigsfeld included Mrs. Ralph Gray, membership; Mrs. Edwin Johnson, program; Mrs. Robert J. Cooner, room mothers; and Mrs. O. P. Chatfield, hospitality.

The program was presented by Charles A. Brown, music instructor and Mrs. Jack Jardine, second grade teacher. Mrs. Jardine announced dance and song numbers by second and third grade pupils.

A dance revue by pupils of Mickey shorts will be presented at the high school gymnasium auditorium May 22. Proceeds will go to the PTA. The annual PTA chuckwagon jamboree will be held June 9. A two-day rodeo will be presented at Richfield on June 9 and 10. Ben Haurich is chairman of the chuckwagon jamboree.

Poppies Held for Jerome

The annual American Legion auxiliary Poppy day sale will be held on May 26 and 28 and next Friday and Saturday as announced earlier.

Mrs. W. W. Prantz said the change was made after a proclamation had been issued by City Commissioner. Chairman R. Lyons Smith.

Punks received from the annual sale are used to aid war veterans in distress and to support the auxiliary's child welfare program. Chairman Smith urged all Twin Falls residents to observe the day by wearing the memorial poppy.

Death Reported
JEROME, May 15—Word has been received here of the death of Ed Sinclair, 40, uncle of Dale Vining. Mr. Sinclair resided in Salem, Ore. He had a heart attack and died Thursday.

Mr. Sinclair came to the Twin Falls tract in 1906 and resided in Pier. He moved to Jerome in 1920 and moved from Jerome in 1941 to Salem. Mr. Sinclair is survived by his wife and children.

Senior Services Held for Jerome

JEROME, May 15—Baccalaureate services were held in the high school auditorium Sunday evening. The Rev. Father Nicholas Walsh, pastor at St. Jerome's Catholic church, delivered the sermon.

Selections were presented by the school choir directed by W. S. Kircher. John Elliott sang accompanied by Gloria Moss. The invocation was given by the Rev. Father Walsh. Benediction was sung by the choir.

The processional and recessional were played by high school band directed by Jackall Davis. Commencement exercises for Jerome high school's 102 graduating seniors will be held at 2 p.m. Friday in the high school auditorium. Tom E. Shearer, College of Idaho president, will speak.

Book Display Is Set for Children

Parents and teachers are extended a special invitation to view the display of 150 new children's books available in the Twin Falls public library, says Arthur DeVolder, librarian.

Among the collection are many award books including the Caldecott, Newberry and others. The exhibit is highlighted with a colorful poster designed by a New York artist, Fritz Eichenberg.

These children's spring book festivals are held prior to the closing of schools to make children, parents and interested persons more aware of reading materials available for the summer months. DeVolder says. The library will terminate the week's event with a story hour for children at 2 p.m. Saturday.

REPORTER FOR DUTY
RUEL, May 15—Oed E. Harbo, son of Mr. and Mrs. Oed E. Harbo, Ruel, reported to the naval training center at Great Lakes, Ill. for duty.

Good Seat Reached at Mine

OAKLAND, Calif., May 15 (UP)—Sen. James Kefauver sat down to rest in a comfort chair at a department store yesterday.

When he looked for a price he found a tag reading: "Campaign chair—\$5.98."

Leaves to Speak

JEROME, May 15—Frying his own airplane, Theron Ward, democratic candidate for the United States senate, left Jerome Tuesday on a speaking tour of northern Idaho. Ward, mayor of Jerome and the probate judge of Jerome county, will speak Tuesday night at a Democratic dinner meeting near St. Maries.

Wednesday evening the Jerome attorney will speak at a meeting of Kootenai county Democrats and young Democrats at the court house in Coeur d'Alene. The tour will carry him into Bonner, Boundary, Shoshone, Latah and Nez Perce counties.

No Agreement Is Reached at Mine

KELLOGG, May 15 (UP)—Representatives of the Bunker Hill mine and local 18 of the Mine, Mill and Smelter Workers' union failed to reach an agreement here yesterday after two hours negotiations following a shutdown of the giant mine.

No future meeting was set. The walkout was apparently triggered by the firing of an employee last week. Workers arriving at the mine this morning were met at the gate by about 25 men carrying placards which said, "no work until grievances settled."

A spokesman for the union said the strike was a "wildcat" and was not authorized by the union. The dispute affects perhaps 800 employees in the shops and the mine.

GRADUATED
RUPERT, May 15—Pvt. Elliot D. Shannon, son of Mrs. Ruby Hall Rupert, was graduated from the army's southeastern signal school at Ft. Gordon, Ga.

Drive Starts

SAIGON, Vietnam (UP)—The government of France has launched a drive to win back the country and major anti-communist forces.

The drive is aimed at stopping Viet Minh infiltration into the country.

Invitation OK
WASHINGTON, May 15 (UP)—President Eisenhower has OK'd an invitation to attend the opening ceremonies of the new AFL-CIO headquarters building here Friday by AFL-CIO President George Meany.
